Why go green?

- To meet our environmental commitment and promote a green culture
- To conserve resources and turn wastes into energy
- To enhance the image of the department and the show

Waste Reduction Measures

~Before the Show~

- Developed an overall waste reduction and recovery programme
- Assessed the types and quantities of waste and recyclables
- Considered integrating green elements into design of exhibits
- Used electronic communication channels as far as possible
- Included in the tender terms that required contractors to recycle materials

香港花卉展覽

Hong Kong Flower Show

- Provided stakeholders with waste reduction guidelines and recycling strategies
- Encouraged exhibitors, commercial tenants and contractors to join the “Green Event Charter” programme
- Recruited and trained students and volunteers for recycling tasks

香港花卉展覽

Hong Kong Flower Show

- Temporary Waste Collection Points and Recyclables Collection Points were set up during venue decoration for sorting recyclable wastes.
